A Magical Story

plum19832020-02-11 11:44:44.0

Far far away, behind the word mountains, far from the countries Vokalia and Consonantia, there live the blind texts. Separated they live in Bookmarksgrove right at the coast of the Semantics, a large language ocean. A small river named Duden flows by their place and supplies it with the necessary regelialia. It is a paradisematic country, in which roasted parts of sentences fly into your mouth.

Even the all-powerful Pointing has no control about the blind texts it is an almost unorthographic life One day however a small line of blind text by the name of Lorem Ipsum decided to leave for the far World of Grammar. The Big Oxmox advised her not to do so, because there were thousands of bad Commas, wild Question Marks and devious Semikoli, but the Little Blind Text didn't listen. She packed her seven versalia, put her initial into the belt and made herself on the way.

When she reached the first hills of the Italic Mountains, she had a last view back on the skyline of her hometown Bookmarksgrove, the headline of Alphabet Village and the subline of her own road, the Line Lane. Pityful a rethoric question ran over her cheek, then she continued her way. On her way she met a copy.

The copy warned the Little Blind Text, that where it came from it would have been rewritten a thousand times and everything that was left from its origin would be the word "and" and the Little Blind Text should turn around and return to its own, safe country. But nothing the copy said could convince her and so it didn't take long until a few insidious Copy Writers ambushed her, made her drunk with Longe and Parole and dragged her into their agency, where they abused her for their projects again and again. And if she hasn't been rewritten, then they are still using her.

Farming for likes isn't cool. Just for that you get a dislike.

Add Comment

 2

 0

Delete

- You can like or dislike an article or a comment by clicking the buttons
- You can only give one like or dislike to an article or a comment.
- You can change between like, dislike and neither.
- If you clicked one of the buttons, the clicked one will be brighter.
- The number of likes and dislikes of an article will be shown on the homepage.

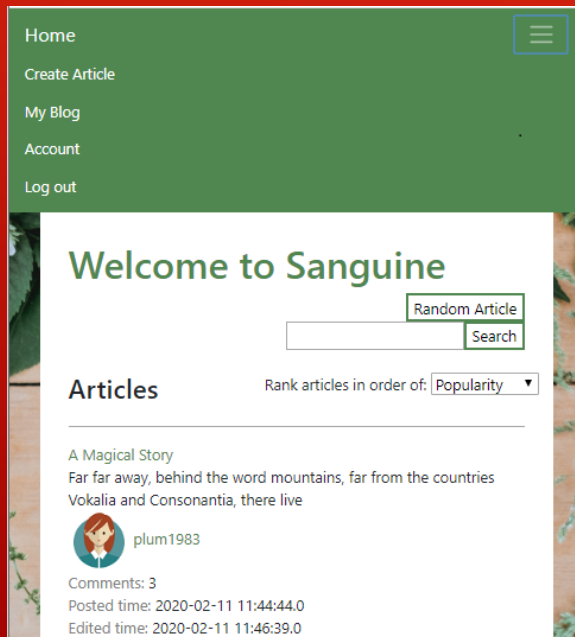

RESPONSIVE DESIGN

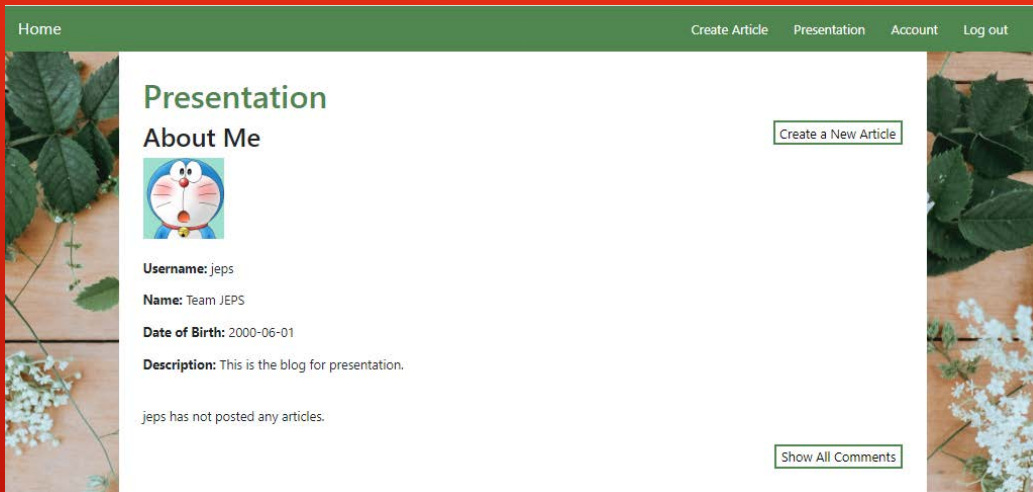

THE NAVIGATION BAR

When the screen width is less than 768px, it will be like this

When you click the hamburger icon, it will open the navigation bar.

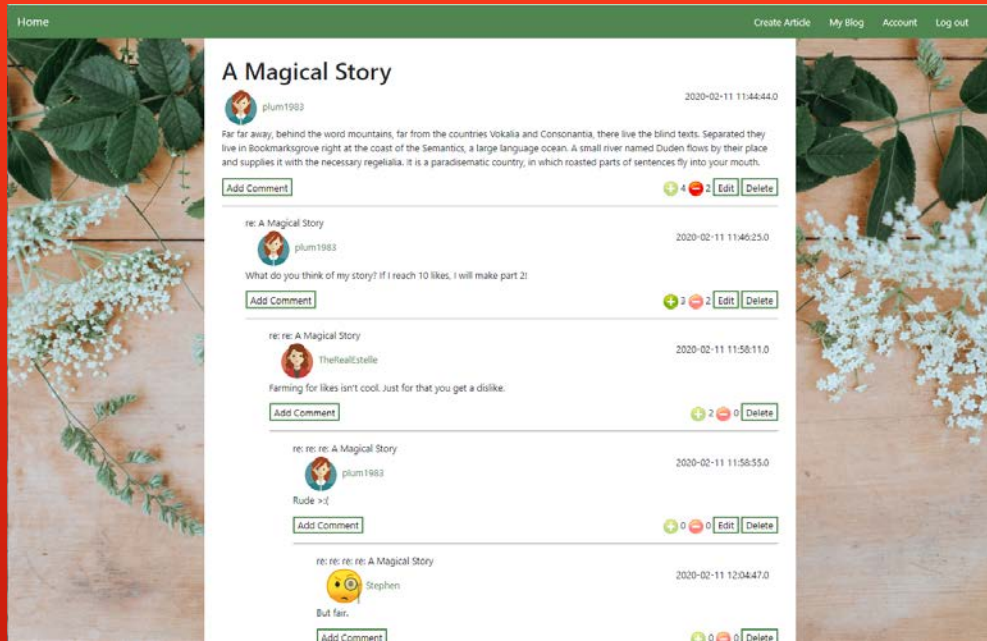

YOUR HOMEPAGE

Your homepage will look like this then the screen width is less than 1500px.

Otherwise, the information part will be shown as a side bar.

ALL PAGES

When the size of the screen is changed, the content of the page will adjust itself to fit the screen automatically.
